

**STATE OF ILLINOIS
CHIEF PROCUREMENT OFFICE**

July 31, 2011

The Honorable Members of the Illinois General Assembly

Greetings,

The Chief Procurement Office is providing to you the Fiscal Year 2011 report of sole source transactions as required by section 20-25 of the Illinois Procurement Code.

This report consists of an executive summary followed by a listing of each sole source transaction categorized by Chief Procurement Officer and then alphabetic by agency or university under each CPO's jurisdiction.

By way of background, agencies and universities rely on the competitive processes to procure supplies and services, but in certain instances they may contract directly with vendors who are the sole economically feasible source. Sole source contracts are appropriate in instances where there is a lack of competition, such as public utilities or where the items is proprietary and available only from the manufacturer. Because these are exceptions to the normal practice of competitive bidding, sole source contracts are given additional review and require a public hearing before they may be signed.

The attached report will provide detail on the Fiscal year 2011 sole source transactions and will further describe the process and the result of required hearings.

We welcome any comments or questions. To that end, each CPO's contact information is included in the report.

Sincerely,

Handwritten signature of Matt Brown.

SOLE SOURCE REPORT FOR FISCAL YEAR 2011

In Fiscal Year 2011, the recently established Independent Chief Procurement Officers have ensured that approximately \$10 billion in procurements made by the State were transparent, accountable, and in the best interest of the State. Where possible, a competitive procurement process was used and an award was made to either the lowest-cost responsible and responsive bidder or the responsible offeror whose proposal was determined to be the most advantageous to the State.

Section 20-25 of the Illinois Procurement Code allows state agencies and universities to contract directly with vendors that are the sole economically feasible source. Sole source awards may be based on factors such as a lack of competition, proprietary technology, copyright or a supplier's unique capability.

1

Breakdown by Chief Procurement Officer

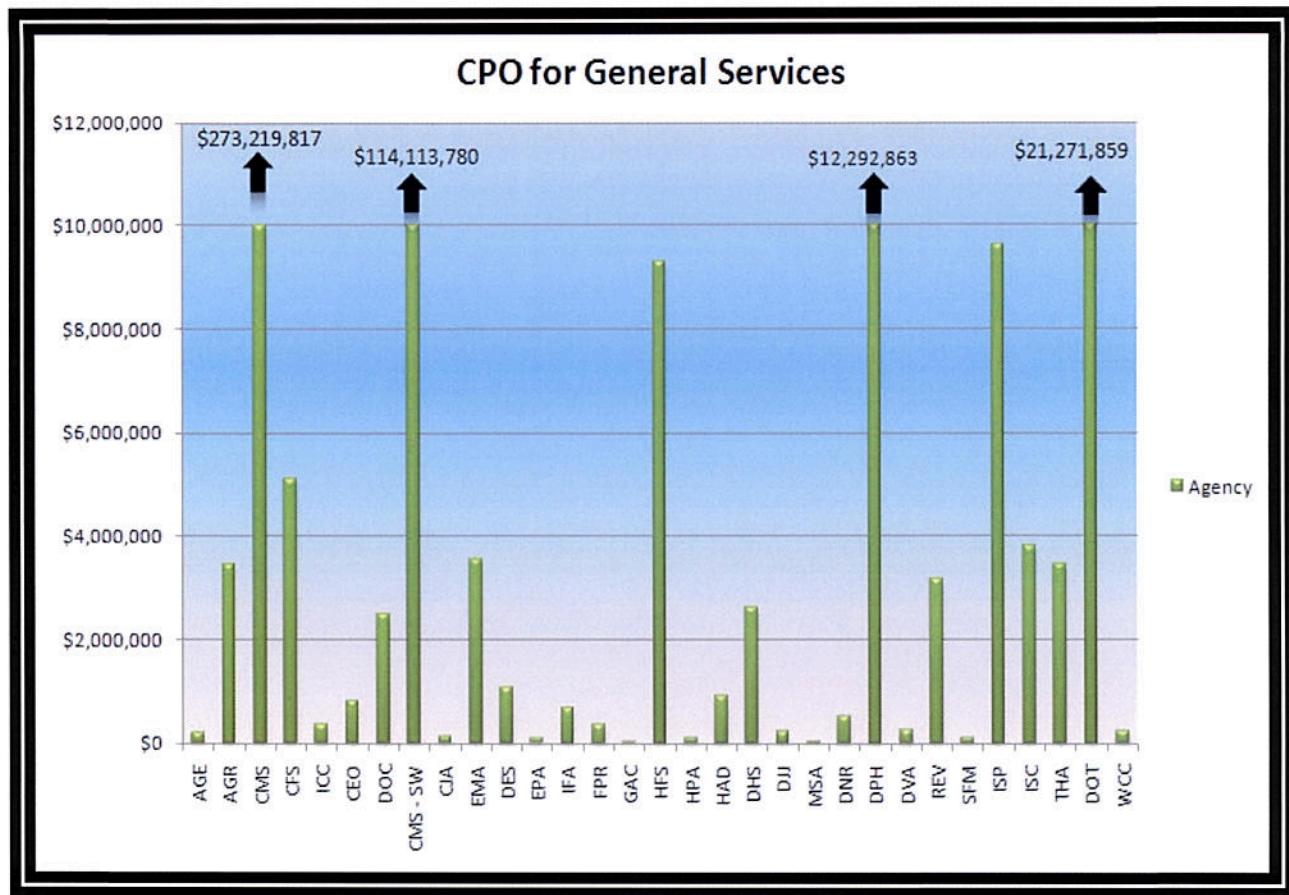

In Fiscal Year 2011, the Chief Procurement Officers made 839 awards made via the sole source procurement method totaling an estimated \$850,367,474 (8.5% of estimated total procurement spend). This report utilizes transaction data accumulated by the Procurement Policy Board based on information posted to the Procurement Bulletin by each agency and university. The CPOs thank the Procurement Policy Board for their assistance in obtaining the detailed transaction data.

The number and estimated value of sole source awards for Fiscal Year 2011 was:

• General Services	259 awards	= \$473,540,045
• Institutions of Higher Education	580 awards	= \$376,827,428
• Capital Development Board	0 awards	= \$0
• Department of Transportation	0 awards	= \$0

CPO for General Services Awards by Agency

30 agencies made 259 sole source procurements.

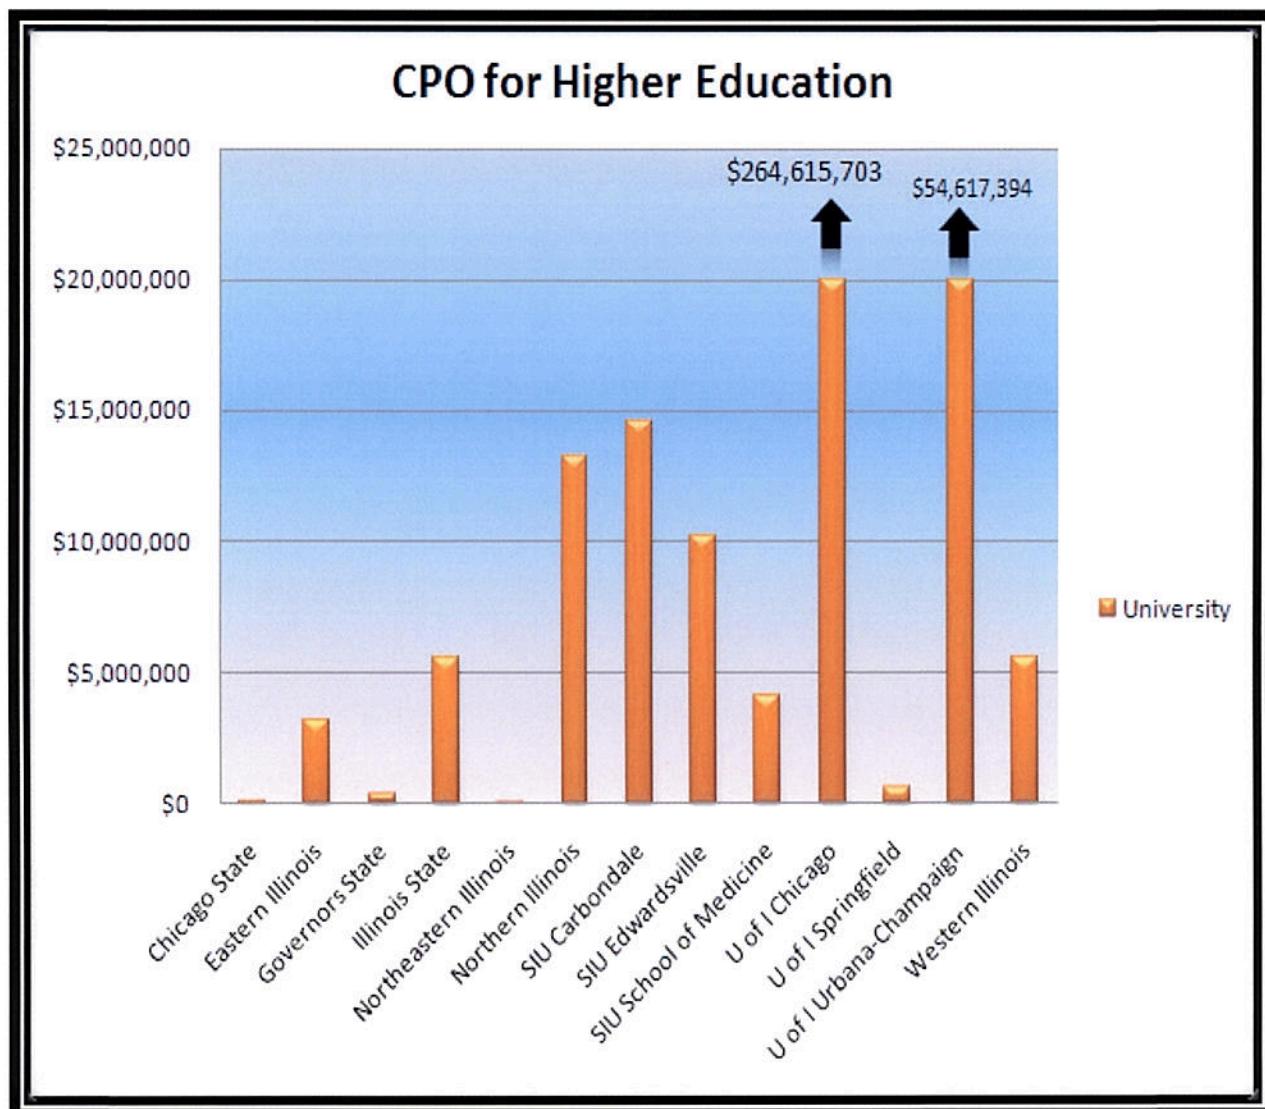

<u>Agency</u>	<u>#Sole Source Awards</u>	<u>Total Value of Awards</u>
Aging	1	\$214,288
Agriculture	31	\$3,429,055
Central Management Services	43	\$273,219,817

University of Illinois – Springfield	9	\$602,463
University of Illinois – Urbana Champaign	180	\$54,617,394
Western Illinois University	34	\$5,570,952

The report detailing the individual sole source transactions is shown in Attachment 1.

Process Transparency

A State contract may not be awarded as sole source unless approved by the Chief Procurement Officer following a public hearing at which the Chief Procurement Officer and purchasing agency present written justification for the procurement method. The Procurement Policy Board and the public may present testimony.

At least 14 days before the public hearing, the Chief Procurement Officer publishes in their online electronic Procurement Bulletin the written description of intent to enter into a sole source contract along with a description of the item to be procured, the intended sole source contractor, and the date, time and location of the public hearing. A copy of the notice and all documents provided at the hearing is included in the subsequent Procurement Bulletin.

The public and other stakeholders presented testimony challenging or questioning the procurement method in less than 1% of the 839 sole source hearings conducted during Fiscal Year 2011.

- In 259 hearings held by the CPO for General Services, interested parties provided testimony at six of those hearings. The testimony did not provide information sufficient to result in a change in the original decision to contract on a sole source basis.
- In 580 hearings held by the CPO for Institutions of Higher Education, interested parties provided testimony at two of those hearings. In one instance, the CPO gave approval to move forward with the sole source contract. In the other instance, the CPO also gave approval to move forward, but on a shorter term basis and with a requirement to issue a competitive solicitation for a replacement contract.
- The Department of Transportation and the Capital Development Board had no sole source needs and thus held no hearings.
